

AFFILIATE PROGRAM

Scandinavian Handles Affiliate Program

Do you design interiors, create furniture, run a showroom, or deliver projects for private and commercial clients? We invite you to cooperate with the Scandinavian Handles brand — a place where details truly matter.

Since 2017 we have been curating furniture handles, lighting, switches, and bathroom, kitchen and decorative accessories from selected manufacturers and European workshops. Our offer is aimed at people looking for products that are aesthetic, durable and visually refined.

The Partner Program was created to make cooperation simple, transparent and convenient: no contracts, no turnover thresholds and no unnecessary formalities. All you need is an account, verification and activation of Partner status.

01 Who is the affiliate program for?

We invite architects, interior designers, furniture manufacturers, carpenters, showrooms, design studios and companies delivering private and commercial spaces.

This is an offer for Partners who work directly with retail clients and want a wide range of products at hand to match different interior styles — from subtle, timeless pieces to bolder, more decorative forms.

Our range works well both for single projects and larger developments, where consistency, quality of finish, availability and the ability to quickly show clients the current offer online matter most.

Architects and designers

Fast access to details that are easy to match to a concept and present to the client.

Carpenters and furniture manufacturers

Handles, knobs and accessories that elevate the aesthetics of the finished piece and help a project stand out.

Showrooms and studios

The option to create a display and show clients the real colours, textures and finishes.

02 How to become our Partner?

Joining the program is simple and doesn't require signing a contract. We care about cooperation that is flexible, quick and convenient in everyday work.

All it takes is registering an account, contacting our team, and activating Partner status after verification.

1. Create an account on our website.
2. Email us at partner@skandynawskieuchwyty.pl with your intention to join the affiliate program.
3. Provide the email address used to register your account. After verification, we will grant you Partner status.

Important: please keep your login details safe and share them with the people responsible for placing orders in your company.

03 Benefits of the program

The affiliate program is based on simple, transparent rules. Partners receive a fixed discount once their account is activated, with no turnover thresholds or additional conditions. This makes the cooperation model predictable and easy to factor into everyday design and sales work.

Besides the purchase discount, a Partner can use the commission program, a discount on display products, and support in promoting their projects.

Fixed 20% discount

Every positively verified Partner receives a fixed 20% discount. The discount becomes active once the account is registered and Partner status is granted.

40% display discount

Partners can use a one-time 40% discount on products purchased for display or as samples.

5% / 10% Program

A Partner can give a client an individual discount code. The client receives a 5% discount, and the Partner receives a 10% commission on the order placed with the code.

How does the 5% / 10% Program work?

1. The Partner gives a retail client an individual discount code.
2. The client creates an account or logs in on the website, places an order and enters the discount code in the cart.
3. The client receives a 5% discount, and the Partner receives a 10% commission on the order value.
4. At the end of each month, we send a summary of orders and the commission due.
5. The commission is paid out based on an issued VAT invoice or bill.

Commission is calculated only for orders in which the Partner's discount code was used. If the client doesn't use the code, no commission is calculated.

Discount codes only work after logging in or registering an account. In the case of a full order return, no commission is due. For a partial return, commission is calculated only for the products that were not returned.

04 Marketing support and promotion

At Scandinavian Handles, we value beautiful projects and love showing how our products look in real interiors. That's why we also support Partners in building visibility and recognition among end clients.

- We can promote Partners' projects on our channels, including social media, our website and the inspiration section.
- A Partner can send photos of projects featuring our products. We're happy to publish them and credit the author of the project.
- We also share Partners' materials in the form of stories and reels, supporting mutual promotion.
- We regularly receive requests for recommended designers and architects, so we actively recommend and support our Partners.
- We help build the Partner's visibility and recognition among end clients and the interior design industry.

Completed a project with our products? We encourage you to send photos or tag your project with the hashtag #pięknowdetalu and the profile @skandynawskieuchwyty.

05 Product availability

On our website you can order products even when their current stock level is 0. This means the product can be added to the cart and ordered, and it will be fulfilled according to the delivery schedule.

Many models are in stock and ready to ship, while imported or made-to-order products are fulfilled according to the manufacturers' and workshops' lead times.

Some products are made in European workshops, which is why they retain a unique character, texture and finish. If you need a fast lead time, we encourage you to contact us before placing a larger order.

[More information: What is product availability?](#)

06 Delivery and shipping cost

We deliver in cooperation with trusted courier companies, taking care of safe transport of orders.

- Free delivery applies from a set order value.
- The delivery cost depends on the delivery country, the order value and the chosen shipping method.
- Current delivery costs are visible in the cart when placing an order.
- For larger orders or project deliveries, we encourage you to contact our team.

07 How to place orders?

Orders should be placed directly through the website. This way discounts are calculated automatically, and the order is correctly assigned to the Partner's account.

We do not accept orders placed by email, phone or messaging apps, as only online orders allow us to maintain correct pricing, discounts, invoice details and commission settlements.

A pro forma invoice is issued automatically once the required details are entered when placing an order. Prices shown on the website are retail prices, and the Partner discount is applied after logging into an account with Partner status.

A convenient online catalogue and filters help you quickly choose products for a project without having to browse multi-page catalogues.

08 Catalogues and price lists

The most up-to-date product catalogue is our website. Our range is constantly growing, so it's best to check prices, availability and product variants online.

The online catalogue is always available and up to date, which makes it easier to present products to clients. A clear shop website and filters help you quickly find the right models without having to use outdated PDF catalogues.

Partner prices are calculated as retail prices reduced by the current discount assigned to the Partner's account.

The Partner discount is automatically applied when placing an order and visible in the cart summary after logging into an account with Partner status.

09 Displays and sample boards

We want our Partners to be able to conveniently present products to clients and show their real texture, colour and finish.

We also help select bestsellers, samples and products that work well in showrooms, design studios and client displays.

A one-time 40% discount applies to the purchase of products intended for display.

[Sample displays can be seen here: Scandinavian Handles displays](#)

Important: before placing a display order, please contact us to arrange the details and receive a discount code.

10 Returns

Partners can return ordered products within 2 months of receiving the order. The extended return period makes it easier to make safe purchasing decisions, especially for larger projects and consultations with end clients.

This gives more time to assess the product, compare finishes and calmly match the details to the project.

In the case of a full order return, commission from the discount code program is not due. If a client returns part of an order, commission is calculated only for the products that were not returned.

[Detailed return instructions: How to return an order?](#)

11 Contact

We care about fast and efficient communication. We provide support with registration, placing orders, choosing products, displays and explaining the program's rules.

Email

partner@skandynawskieuchwyty.pl

Website chat

The chat is located in the bottom right corner of the website.

Partner support

Once you've been granted Partner status, we'll help you place orders and explain the program's rules.

Let's start cooperating

Join the affiliate program and get a fixed discount, the chance to earn commission from referrals, support with displays, and access to the current product catalogue.

Create an account, write to us, and provide the email address used during registration. After verification, we will grant Partner status and activate the discount on your account.
